# CONSIDER THIS:

- (1) Public documents show that the neocons planned to invade Afghanistan and Iraq – PRIOR to 9/11
- (2) Osama Bin Laden has never been charged with the 9/11 crimes, nor were any of the 19 alleged hijackers shown to have links to Bin Laden
- (3) The money to finance the hijackings came from the ISI (CIA) of our “ally” Pakistan
- (4) The most advanced military force in the world (US) could not intercept 4 planes that were obviously deviating from filed flight plans
- (5) Until 9/11 no steel-frame, high-rise building had ever collapsed due to fire
- (6) The rapid removal of debris from the WTC site constituted a federal crime (removal of evidence from a crime scene)

- (7) No evidence exists that an actual Boeing 757 hit the Pentagon, and the FBI will not release the confiscated tapes that would solve the mystery
- (8) Flight 77 (alleged Pentagon plane) disappeared from radar screens – and then reappeared headed for Washington
- (9) Cell phones did not work in 2001 at the altitudes of the hijacked airliners
- (10) Eyewitnesses in S.E. Pennsylvania swear that Flight 93 (“Let’s roll!”) **was** shot down by a military aircraft
- (11) Dr. Steven Jones, physicist of Brigham Young University, has confirmed the presence of thermite residue on WTC steel = **“smoking gun”**

...AND FINALLY, **CONSIDER THIS:**

**If the Administration story is even nominally true, it would represent the first and only time that they **DID NOT** lie to us!**

VIRTUALLY EVERYTHING THEY HAVE DONE TO US AND THE WORLD HAS BEEN JUSTIFIED BY POINTING TO 9/11 – Could it really have been merely a fortuitous and unpredictable event???

*And Now...*

**Loose Change –  
Final Cut**
