

## Editing the ANGEL Home Page

The ANGEL Learning Management System allows you to customize your ANGEL home page. Some items, like your course list and announcements can't be removed. But there are many components that you can add, move or maximize/minimize.

### A. To Remove an ANGEL Home Page Component:

1. Click Edit Page.
2. Click the X next to the component you'd like to remove:

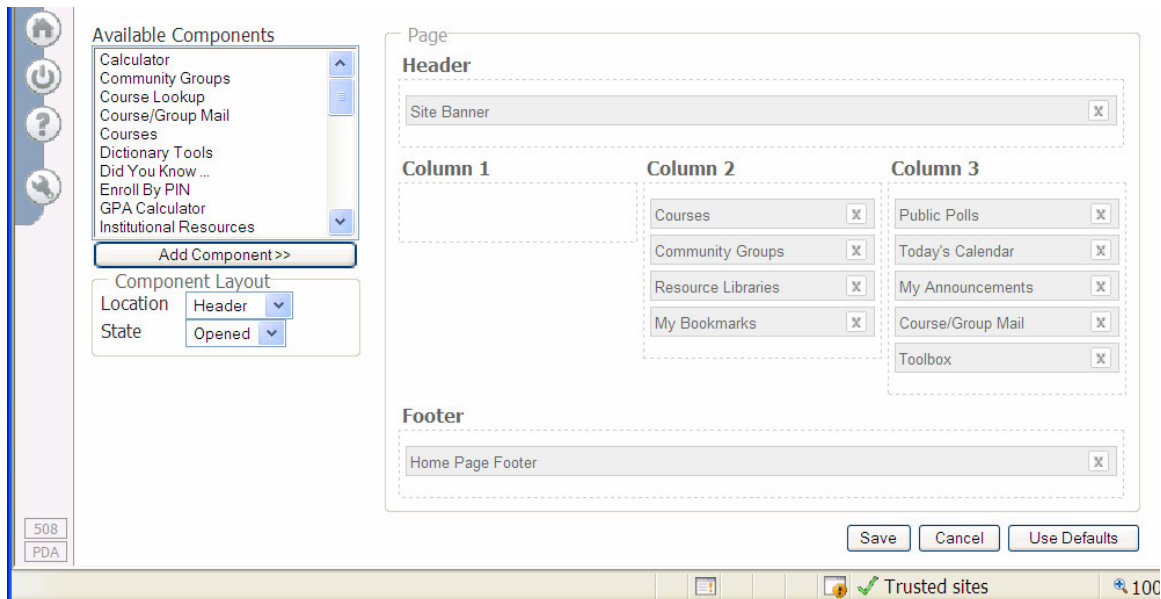

3. Click Save.

### B. To Minimize a Page Component:

Click the minus sign (-) in the upper-right corner of the component to minimize it. This minimizes the component and turns the minus sign (-) into a plus (+) sign. To maximize the component, click the plus (+) sign.

### C. To Add a New Component

1. Click Edit Page.
2. In the Available Components, list, select the component you'd like to add. If you don't see the component you want in the list, look for it in the layout area (in a header, footer or column on the right).
3. Choose a location from the location drop down. You can choose the header, one of three columns, or the footer.
4. Click the Add Component button. The Component appears in a location.
5. Click Save.

### D. To Move a Component

1. Click Edit Page.
2. Click the box with the label of the component you'd like to move. Hold and drag the box to the new location
3. Click Save.
