

# Application For Robert Noyce Scholarship

### General Selection Criteria:

- Applicants must be in (or about to begin) the last two years of a program leading to certification as a teacher of mathematics or science at the adolescence or middle childhood level.
  - Applicants may be SUNY Fredonia students who are changing their major to a certification program from a regular mathematics or science major, or transfer students from community colleges holding the A.S. Degree with an emphasis in science or mathematics.
  - Transfers from 4-year institutions may also be considered, provided they are changing from a regular science or mathematics major to a certification program.
- Minimum 3.0 GPA in the subject area and overall.
- Must be a U. S. citizen, national, or permanent resident alien.

### Application Procedure

- Complete this application form.
- Request two letters of recommendation that address your academic achievement and potential for success as a teacher. These letters should be mailed directly to the address below.
- Compose a brief essay (approximately one page in length) describing your career goals.
- File a Free Application for Federal Student Aid (FAFSA). Scholarship support is for a maximum of two years and although this is not a "needs-based" scholarship, you must file a FAFSA. Go to [www.fafsa.ed.gov](http://www.fafsa.ed.gov) to file FAFSA electronically. Electronic filing is faster and less prone to error. You (and your parent if dependent) must obtain a pin number from the U.S. Dept. of Education to electronically sign FAFSA. The link to obtain the pin number can be found at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). If you choose not to file FAFSA electronically, you can fill out the paper version of FAFSA available in the Financial Aid Office. Once completed, you should mail the FAFSA in the envelope provided with the application. Make a copy for your records. Fredonia's school code is 002844.

RETURN this completed application form, with your essay, and have your letters of recommendation sent, to:

**Noyce Scholarship Program  
Department of Mathematical Sciences  
State University of New York  
Fredonia, NY 14063**
