Re: **Scheduled Shut Down of Power to Campus**

The annual preventative maintenance power outage on the campus is scheduled for:

**6:00 p.m. Monday, May 17, 2010**  
**to**  
**6:00 a.m. Tuesday, May 18, 2010**

This power outage will allow the Facilities Services Department to

- Perform preventative maintenance on the high-voltage distribution system
- Repair transformers in McGinnies, Alumni, Chautauqua, and Nixon Halls
- Replace the main transformer in the Andrews Complex

Emergency generators will provide minimal lighting within all buildings on campus.

The outage will **not** affect services such as internet, campus network, e-mail, website access and other services maintained centrally in the Maytum Hall Computing Center. All on-campus PC and Macintosh users, and lab coordinators are advised to turn off and unplug their machines prior to 6:00 p.m., Monday, May 17, 2010.

As always, your patience and cooperation are greatly appreciated.
