A Conversation With Ann Crotty

This full-day workshop will focus on a discussion of changes in the assessment of science instruction in New York State. We are very fortunate to have Ann Crotty, Science Associate from the State Education Department joining us for the day.

Our morning will begin with Ms. Crotty leading the discussion on the role that the assessment system plays in helping us to meet the New York State Learning Standards. This conversation will be further developed during the afternoon sessions where you will have the opportunity to focus on the issue of performance assessment at your specific level or discipline. Ms. Crotty will move from group to group to answer specific questions brought forward during her talk in the morning.

The schedule for the Conversation with Ann Crotty is posted on the Institute for Research in Science Teaching website.

Please join us for this unique opportunity.

Tuesday, March 18, 2003
8:00 AM - 3:00 PM
Williams Center
State University of New York at Fredonia
$50* Maybe covered by Title II funds
