Re: Revised Timeline for the Program Deactivation Review Process

I am writing to follow up on my message to you on December 20, 2023 regarding the program deactivation timeline. On February 9, members of the President's Cabinet, the University Senate Executive Committee, and the co-chairs of the Planning and Budget Committee met to discuss analyses and syntheses of the program proposals submitted to us. During the course of that meeting, we noted that revisions were necessary in the timeline. The revisions have been agreed upon with our shared governance leaders, and you can find the [revised timeline linked here](#).
