

FREDONIA TECHNOLOGY INCUBATOR

The Fredonia Technology Incubator (FTI) is a mixed use business incubator with a focus on arts and technology. **FTI** offers entrepreneurs access to a unique facility, business resources and technology expertise, as well as highly qualified business mentors. The 21,000-square-foot, two-story, Silver LEED certified facility, located in downtown Dunkirk Harbor District, provides support and shared services to start-up companies, thereby increasing the odds of each company's success. **FTI** also serves as a StartUP NY location and a member of the WNY Innovation Hot Spot consortium. It is the location of the Chautauqua County Industrial Development Agency's (CCIDA) northern Chautauqua County Offices.
