Survey Background, Methodology, and Results

The SUNY Student Opinion Survey (SOS) Project

The SUNY SOS Project periodically collects background, attitude, and opinion information from samples of students – particularly undergraduate students – to explore and assess the following.

- College impressions and plans
- Satisfaction with services, facilities, and environment
- Perceived college outcomes
- Frequency of selected academic experiences
- Extent of campus contributions to student growth/preparation

In the spring of 2018, as part of a continuing effort to study the quality of student life on campus, the SUNY Office of Institutional Research and Data Analytics led the system's institutions in a cooperative research effort to assess students' impressions of their college education. The 2018 project was the twelfth in the series of survey projects; earlier projects were conducted in 1985, 1988, 1991, 1994, 1997, 2000, 2003, 2006, 2009, 2012, and 2015.

At each participating institution, a local campus coordinator was responsible for working with ACT to administer the survey. ACT coordinated instrument design and production and prepared detailed summary reports, composite reports, institutional graphics reports, and comparison reports.

Survey Methodology

The Survey Instrument. In 1985 and 1988, the ACT *Student Opinion Survey* was used for the state-operated colleges and the ACT *Student Opinion Survey (2-Year College Form)* for the community colleges. Use of the standard ACT instruments allowed SUNY the advantage of having national norms available for all items. However, because two somewhat different survey forms were used, comparisons between SUNY's community colleges and state-operated institutions were not possible for certain items of interest. As the project grew in scope, SUNY administrators decided that a unique SUNY instrument, with additional and modified items, was needed. In 1991, SUNY directed ACT to prepare the first edition of the *SUNY Student Opinion Survey (SUNY SOS)*. In 1994, at the request of SUNY personnel, ACT modified the instrument and SUNY institutions administered this new edition in both 1994 and 1997. In 1999, additional modifications were made to the SUNY SOS, and the third edition was administered in the spring of 2000.

In 2003, two new versions of the instrument were developed: SUNY SOS Form A for state-operated institutions and SUNY SOS Form B for community colleges. The 2003 instruments contained some common item sets as well as items that pertained, primarily, to the state-operated institutions or community colleges. Also in 2003, a random response check item was embedded in each instrument to allow for quality control.

In 2006, the two versions of the SUNY instrument developed in 2003 were again updated to reflect the emerging needs of the System. A random response check item was again embedded in each instrument; at the direction of SUNY System officials, records for those students who chose an inappropriate response (i.e., Very Satisfied through Very Dissatisfied) to the random response check item were eliminated from all analyses and from the data files provided to the institutions. That year,

participating institutions had the option of administering either paper-and-pencil copies of the instruments or an online version developed by ACT and posted on its web site.

In spring 2009, the version of the instrument designed for state-operated institutions was again updated; the System's community colleges deferred their participation until spring 2010. Relatively few changes were made to the basic content of the instrument, but an item was added to collect a student signature granting permission to use the student's ID or Social Security number, if provided. A random response check item was again included and individuals who failed to correctly respond to this item were eliminated from all analyses and data files. As in 2006, institutions had the option of administering either paper-and-pencil copies of the survey form or an online version prepared by ACT.

For 2012, the survey instrument for state-operated colleges was again updated by a committee of individuals from several SUNY institutions; the system's community colleges deferred their participation until spring 2013. Few changes were made to the basic content of the instrument; a student ID and signature granting permission to use the ID were again included. As in previous years, a random response check item was included, and responses from students who provided incorrect responses to this item were eliminated from all analyses. Participating institutions again had the option of administering either paper-and-pencil copies of the survey form or an online version prepared by ACT.

Beginning in 2015, the survey instrument was offered in an online version only. Both the 2015 and 2018 versions contained revisions made by a committee of individuals from several SUNY state-operated colleges and the system administration office. In 2015, 9 items on the instrument were deleted and/or replaced, an approximately equal number were moved, and approximately 17 items were changed slightly. Updates to the instrument in 2018 were similar in scope to those of 2015 (17 items deleted, 4 added, 4 moved, 13 changed slightly). A guide to the questions presented in the instrument is provided in Appendix A.

Institution Participation. During each of the 12 tri-annual administrations of the SUNY survey, institutions have been encouraged to participate but have done so on a voluntary basis, with some colleges involved in only a few of the project years. Provided in Table F1 in Appendix F is a listing of the state-operated institutions that participated during each of the 12 project years and the number of instruments each institution returned to ACT for processing. In the spring of 2018, 27 of SUNY's state-operated institutions participated in the project, returning a total of 28,478 instruments for processing.

Survey Administration. At each participating campus, the survey was conducted online. Institutions were able to customize the instrument's introductory page (e.g., add their logo, provide special instructions) and the survey messaging.

Number of Participating Students. Table F2 in Appendix F contains a list of the SUNY institutions that administered the survey during the spring of 2018. The table also presents each institution's fall 2016 undergraduate enrollment, the approximate number of students who were asked to complete the survey (i.e., the "number of students sampled"), the number of respondents who completed surveys, each institution's survey response rate, and the number of valid cases for each institution. Note that all cases with invalid responses (Very Satisfied through Very Dissatisfied) to the random response check item were removed before reports were prepared. Only student records with responses to at least 12 of the 94 items in Sections II, III, and IV of the instrument were included in the "number of completed surveys."

Because the number of valid cases varied considerably across campuses (due to over-sampling and varying survey administration procedures), comparison groups could not be developed by simply pooling the survey records from the participating schools – some type of balancing/weighting was required to assure that no institution was overrepresented in the composite statistics. To address this issue, ACT randomly selected, from each institution’s valid survey records, the “number of surveys required” (based on fall 2016 undergraduate enrollment) communicated to local campus survey coordinators by SUNY officials at the start of the project. If an institution returned fewer than its “required” number of surveys, all valid records were included in the institution’s comparison file. All comparison group statistics were computed using these down-sampled data files (see the last column of Table F2.)

Note that, for the 2018 Comparison Reports, statistics (averages, frequencies, etc.) for individual institutions were based on ALL valid student records returned to ACT for processing. Down-sampling was only used to prepare the data files for the comparison groups (e.g., comprehensive sector colleges, technology sector colleges). This approach differs from that used in 2006 and earlier, when all data files, including those for individual institutions, were down-sampled for comparison purposes.

The 27 participating state-operated institutions asked approximately 145,979 students to complete surveys. Overall, 26,224 students responded, with reported institutional response rates ranging from 8% to 35%. Of the responding students, records for 2,422 were removed from the data file due to invalid responses to the random response check item, yielding 23,802 “valid” records. A total of 13,835 student records were sampled from the valid institutional records for use in preparing the comparison group data files.

Reports Provided to Your Institution

Following the processing of your institution’s completed survey instruments/records, a Summary Report, based on all valid returned survey forms (see the second-last column of Table F2), was prepared and sent to your campus survey coordinator if requested. The report contained frequencies and percentages for your students’ responses to all items, as well as item averages and standard deviations for Likert-scale items in item number order and rank order by item average. Note that records with invalid responses to the random response check item were eliminated before this report was prepared. Also note that all valid records for your institution were used to prepare both your Summary Report and the following comparison report tables for your institution.

Also, included in this document is a Graphics Report (if requested by your institution) that presents selected survey findings in a visual format. The Graphics tables enable those interpreting the results to quickly identify aspects of the school for which there are large differences between the findings for the specific school and peer institutions.

The Comparison Report (this report) supplements the other reports and contains answers to some basic questions about the project, cautions to consider when interpreting the results, and statistical comparisons of your institution’s findings with those of similar types of institutions (e.g., University Centers, Colleges of Technology). The report includes the following information.

1. Institution comparisons. Your institution’s item-by-item results (for Likert-type items) are ranked in relation to those of your peer institutions and among all SUNY state-operated institutions (see Appendix B.) Significance test information is also included to aid in the

interpretation of observed differences between your results and those of other, comparable SUNY institutions. Comparisons for demographic and non-Likert items, with Chi-square tests where appropriate, are presented in Appendix C.

2. Comparison group statistics. (See Appendices D and E.) Included in these tables are frequencies, percentages, and Likert-scale averages for the SUNY state-operated college sectors listed below.

- 27 participating state-operated colleges
- 4 University Centers
- 12 University Colleges
- 7 Colleges of Technology
- 4 Specialized Colleges

3. Survey administration statistics. (See Appendix F.) Table F1 presents a history of institutional participation in the SUNY survey project, and Table F2 presents a summary by institution of sampling information, survey administration procedures, and response statistics for the 2018 project.

Factors to Consider When Interpreting Results

Before comparing your institution's results with those of other SUNY colleges and with your own results from previous SUNY SOS administrations, you should consider the following information and cautions.

Sampling and Administrative Procedures. Were your sampling procedures and response rate similar to those of the institutions and groups with which you are comparing your results? If not, the average differences you observe for Likert-type items may be due, at least in part, to differences in your sampling and administration procedures.

Respondents' Demographic Characteristics. Are the demographic and background characteristics of the comparison groups sufficiently similar to those of your institution's respondents? Large demographic differences may raise serious questions concerning any comparisons. For example, if your respondents included mostly first-year students whereas most other campuses equally sampled students from all class levels, you may need to interpret all of your inter-institutional comparisons with special caution.

Availability of Services, Programs, and Facilities. Not all participating institutions offer all of the services, programs, and facilities listed in Sections II and III of the 2018 SUNY SOS instrument. Therefore, institutional comparisons for these items should take into account availability and usage differences from campus to campus.

Wording, Format, and Context of the Survey Items. If you wish to compare your results with those for 2015 or earlier, be sure to examine copies of the instruments used during each administration. Form A of the 2018 SUNY SOS is an updated instrument with a number of important differences from earlier instruments. Additionally, this instrument is considerably different from the ACT *Student Opinion Survey* instrument that was used during the 1985 and 1988 SUNY projects. Please note that even when the survey items are identical in wording and format, student responses may be affected by different item ordering or the addition/deletion of items (context effect).

Comparison Groups. The comparative data provided for various SUNY institutional groups are based on composites of the survey records obtained independently by each of the participating institutions. Because many institutions received considerably more responses than the sample sizes recommended by SUNY System officials (see “number of records used in comparison group sample” in Table F2), ACT randomly down-sampled the data file for each of these institutions to the number of respondents in its required sample size. For the limited number of institutions that returned fewer than the required number of surveys, all valid records were included in the comparison files. *Note that this down-sampling procedure was only used to prepare the data files for the comparison groups (e.g., University Centers, Colleges of Technology). The Comparison Report statistics (averages, frequencies, etc.) for individual institutions are based on ALL valid student records returned to ACT for processing. This approach differs from that used in 2006 and earlier, when all data files, including those for individual institutions, were down-sampled for comparison purposes.*

Invalid Responses. All student records with invalid responses (Very Satisfied through Very Dissatisfied) to the random response check item (Section IIIA, Item 16) were removed before reports and comparison tables were prepared.

Absolute Interpretations. The absolute magnitude of all averages should be considered when interpreting the comparative figures. For example, if your institution’s satisfaction average for a particular item was 4.00 (on a 5-point scale) and the comparable SUNY institution-sector average was 4.20, your average, although slightly lower, still indicates a fairly high degree of student satisfaction. Also, reviewing the percentages of students selecting each of the response options can provide valuable information that might be missed, using only the item average.

Test of Significance. The test of significance (a two-tailed test) for each difference between item averages was based on a two-sample contrast between your institution’s average and the corresponding average for the other institutions in your SUNY comparison group/sector. The test assumed that both samples were randomly selected from their parent populations and that the variability of responses (coded 5, 4, 3, 2, and 1) for the colleges involved in the comparison was roughly the same. Note that this *t*-test addressed neither the practical significance nor the appropriateness of the comparison being made. An observed difference may be statistically significant but not particularly important to your institution; other results might be important to your institution even if they are not statistically significant at a predetermined level. Also, the 2018 Comparison Reports are based on all valid student surveys returned by each institution. Because some institutions provided well over 1,000 completed instruments, very small differences in means are likely to be noted as statistically significant. In general, differences with effect sizes under 0.20 (differences of .15 to .20 on the Likert scales used in the SUNY survey) are considered relatively minor.

Significance Levels. Three different significance levels (.05, .001, and .00001) were used in conducting the statistical tests presented in your institution’s comparative report pages. Because of the large number of statistical tests conducted, you may wish to exercise caution when interpreting differences that are statistically significant only at the .05 level. Even if the null hypotheses were all true (i.e., there were no statistically significant differences), you would expect to observe several false positives (Type 1 errors) when conducting this many significance tests at the .05 level.

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section I—College Impressions and Plans	
1. Compared to your expectations, your academic experiences at this college have:	Exceeded your expectations Met your expectations Not met your expectations
2. At the time you applied for admission, this college was your:	First choice Second choice Third choice Fourth or lower choice
3. If you could start over, would you choose to attend this college again?	Definitely yes Probably yes Uncertain Probably no Definitely no
4. Is your current plan to graduate from this college?	Definitely yes Probably yes Uncertain Probably no Definitely no
5. Do you intend to transfer to another college? [Only displayed if student chose "Probably no" or "Definitely no" to previous question.]	Definitely yes Probably yes Uncertain Probably no Definitely no
6. Please explain why you intend to transfer. [Only displayed if student chose "Definitely yes" to previous question.]	Open-ended response
7. What is your overall impression of the quality of education at this college?	Very high High Average Low Very low
8. How satisfied are you with this college in general?	Very Satisfied Satisfied Neither satisfied nor dissatisfied Dissatisfied Very dissatisfied
9. Comparing the cost to the quality of education, this college is a good value.	Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section II—Academic Services, Environment, and Experiences

Part A: Level of satisfaction with college academic services and environment

Indicate your level of satisfaction with each of the following aspects of this college's academic services and environment.

1. General academic advising	Very satisfied
2. Academic advising in your major or program of study	Satisfied
3. Library resources (physical collections, online databases, etc.)	Neither satisfied nor dissatisfied
4. Library services (reference support, research assistance, etc.)	Dissatisfied
5. College tutoring services	Very dissatisfied
6. Availability of faculty/instructors outside of class	Did not use or not available/applicable
7. Class size considering the type of class	
8. Availability of courses in your major or program of study	
9. Availability of general education courses	
10. Availability of internships, co-ops, and practicums	
11. Availability of online courses	
12. Quality of instruction	

Part B: Academic experiences at this college

Respond to the following questions about your academic experiences at this college.

How frequently have you...

1. been intellectually stimulated by the material covered in class?	Very frequently
2. been involved in community service or service learning activities as part of a course or academic program at this college?	Frequently
3. had discussions, meetings, or conversations with instructors outside of class?	Occasionally
4. had faculty/instructors who used innovative or creative techniques to engage students in learning?	Rarely
5. engaged in research or other creative projects under the guidance of a faculty member/instructor?	Never
6. collaborated with other students on class assignments?	
7. received feedback (written or oral) from faculty/instructors on the quality of your work?	
8. had faculty/instructors who required you to make judgments about the value of information, arguments, or methods?	
9. had faculty/instructors who did not communicate effectively in class?	
10. been aware of student dishonesty when completing assignments or exams?	
11. experienced classroom behavior by other students that was disruptive to learning?	

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section III—College Services, Facilities, and Environment

Part A: Level of Satisfaction with college services, facilities, and environment

Indicate your level of satisfaction with each of the following aspects of this college's services, facilities, and environment.

1. Financial aid services (not the amount of financial aid received)	Very satisfied
2. College dining services	Satisfied
3. Course registration process	Neither satisfied nor dissatisfied
4. Billing and payment process	Dissatisfied
5. College bookstore services	Very dissatisfied
6. Intra-campus transportation (e.g., campus bus/shuttle system)	Did not use or not available/applicable
7. Career planning services	
8. Help in finding jobs during college	
9. On-campus child care services	
10. Classroom facilities	
11. Course-related laboratories (not including studios)	
12. Study areas (not including studios)	
13. Fine and performing arts studios (art, dance, film, music, theater)	
14. General condition of buildings and grounds (other than residence halls)	
15. Parking	
16. Please select "Did not use or not available/applicable" for this question.	
17. Athletic and recreational facilities	
18. Campus center/student union	
19. General condition of residence halls	
20. Your sense of belonging on this campus	
21. Freedom from harassment or bullying on campus	
22. Racial harmony on campus	
23. Faculty/Instructor respect for students	
24. Non-teaching staff respect for students	
25. Campus acceptance of individual differences	
26. Campus openness to opinions of others	
27. Your social support network on campus	
28. Educational programs regarding alcohol and substance abuse	
29. Your sense of personal safety/security on this campus	
30. Student Health services	
31. Health and wellness programs	
32. Personal counseling services (excluding academic advising)	
33. New student orientation	
34. Intercollegiate athletic programs	
35. Recreation and intramural programs	
36. College social activities	
37. Cultural programs (art, dance, film, music, theater)	
38. Guest speakers outside of class	
39. Opportunities for involvement in campus clubs/activities	
40. Opportunities for community service	
41. Opportunities for leadership development	
42. Residence hall services/programs	
43. Religious/spiritual activities and programs	
44. Student input in college policies/plans	
45. Student government	
46. Services to support transfer students	
47. Services to support off-campus/commuter students	
48. Computing support services (e.g. Helpdesk)	
49. College computing network (wireless access, web services, mobile apps, etc.)	
50. Access to computers and related technology	

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section III—College Services, Facilities, and Environment

Part B: Level of Agreement with statements regarding college services, facilities, and environment

Indicate your level of agreement with the following statements.

1. Acts of prejudice based on race are rare at this campus.	Strongly agree
2. The rules governing student conduct are clear to me.	Agree
3. I have developed a mentoring relationship with a faculty/staff member.	Neither agree nor disagree
4. Acts of prejudice based on sexual orientation are rare at this campus.	Disagree
5. Acts of prejudice based on gender identity are rare at this campus.	Strongly disagree
6. It has been difficult to finance my college education.	

Section IV—College Outcomes

How much is this college contributing to your growth and learning in each of the following areas?

1. Acquiring information, ideas, and concepts	Very large contribution
2. Acquiring analytical thinking skills	Large contribution
3. Working with others	Moderate contribution
4. Acquiring knowledge and skills needed for a career	Small contribution
5. Understanding and appreciating ethnic/cultural diversity and other individual differences	No contribution
6. Writing clearly and effectively	
7. Speaking clearly and effectively	
8. Using computer and information technology effectively	
9. Developing leadership skills	
10. Understanding political and social issues	
11. Acquiring knowledge and skills for further academic study	
12. Acquiring knowledge and skills for intellectual growth throughout your life	
13. Acquiring knowledge and skills for personal growth throughout your life	
14. Understanding environmental and sustainability issues	
15. Developing an openness to the opinions of others	

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section V—Background Information	
1. What is your age group?	18 or 19 20 to 24 25 to 34 35 to 44 45 to 54 55 and over
2. What is your gender?	Male Female Other
3. Do you identify as LGBT+?	Yes No Prefer not to respond
4. Indicate if you are of Hispanic or Latino background.	Yes No Prefer not to respond
5. Indicate your race. Select all that apply.	American Indian/Alaska Native Asian Black/African American Native Hawaiian/Other Pacific Islander White International Prefer not to respond
6. Are you currently married?	Yes No
7. Are you the parent or guardian of one or more dependent children?	Yes No
8. Is your attendance at this college dependent on finding quality child care services? [Displayed only if "Yes" selected for previous question]	Yes No
9. Is it your plan to find work in New York State following graduation?	Yes No Not sure
10. Which of the following best describes your military service?	Active military duty National Guard or active reserve Veteran I have not served in the military Other
11. Which of the following was true for you when you first entered this college?	This is the first college I attended after high school. Transferred from a 2-year college Transferred from a 4-year college Other
12. What is your overall cumulative grade point average (GPA) at this college?	3.5 – 4.0 3.0 – 3.49 2.5 – 2.99 2.0 – 2.49 Below 2.0 Not applicable or do not know
13. Are you enrolled this semester as a full-time or part-time student?	Full-time (12 credits or more) Part-time (less than 12 credits)
14. What is your student level?	Freshman Sophomore Junior Senior Other or do not know

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Appendix A Survey Items

Section V—Background Information	
15. Indicate the number of hours <i>in a typical week</i> that you spend on each type of activity listed below. a. Homework and studying outside of class b. College-sponsored activities (athletics, intramurals, social activities, student government) c. Paid employment d. Non-compensated community services or volunteering e. Care of family	0 Hours 1-5 Hours 6-10 Hours 11-15 Hours 16-20 Hours 21-30 Hours 31-40 Hours 40+ Hours
16. Where do you currently live?	On campus Off campus
17. How long does it take you to get to campus? [Displayed only if "off campus" selected in previous question]	Less than 15 minutes 15-30 minutes 31 minutes to 1 hour More than 1 hour
18. Did you receive a Pell Grant this year?	Yes No Don't know
19. What is the highest degree or level of schooling completed by either of your parents?	Middle school High school Some college (but no degree) College degree Graduate school degree Unknown/other
20. How many of the courses you have taken at this college were online courses?	None A few Most All

Section VI—Additional Questions	
Campus-specific questions [<i>Up to 18 local questions may be added to this section of the survey</i>]	

Section VII—Comments and Suggestions	
Please use the box below for any comments or suggestions you wish to make.	Open-ended response

Table B1

SUNY Student Opinion Survey (Form A) Comparative Report – 2018

Section I – College Impressions and Plans

SUNY College at Fredonia

8/19/2018

Totals/Response Rate	177,208	145,979	26,224	21.5	23,802	13,835

* The number of surveys completed includes cases where students responded to 12 or more survey questions in Sections II, III, and IV.

**The number of valid records reflects completed surveys for which a valid response was provided to the random response check item.

*** Where applicable, the number of records from each institution used to compute group statistics for the Comparison Reports was randomly reduced to the "required" sample size provided by the SUNY System Administration.
