Additional Notes:		

* Two Courses in Each Area. Transfer students are encouraged, but not required, to complete Themes.

**All Fredonia students must successfully complete a minimum of one language course (110 or above). The appropriate course level will be determined by a proficiency test in the language of the student's preference. In order to select the correct course, all incoming students must take the placement test as soon as possible in the semester before taking a foreign language course. Students that do not have any background in the preferred language of study can choose to take the 100 level of the preferred language instead of the placement exam to be prepared for the 110 course.
