

## **Ability of Completers to be Hired in Education Positions for which They Have Been Prepared**

The College of Education Annual Alumni Survey for AYs 2014-2015, 2015-2016, and 2016-2017 provides some insight into the degree to which our program completers are able to be hired in education positions for which they have been trained. Of course, our position is that completion of a high quality program combined with successful completion of all New York State licensure requirements makes Fredonia completers very competitive in regional, state, and National job searches. Generalizing a sample of n = 122 College of Education Alumni:

- Approximately 70% of our program completers will enter into education positions related to their certification area soon after graduation
- Approximately 17% will work in education related jobs but not necessarily as a classroom teacher
- The remaining completers are either pursuing a higher degree or not pursuing an education related position
