

**State University of New York at Fredonia Baccalaureate Social Work Program
Assessment of Student Learning Outcomes – Form AS4 (B)**

Last Completed: September 1, 2012

This form is used to assist the COA in the evaluation of the program's compliance with the accreditation standards below:

4.0.2 *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving the benchmark.*

4.0.4 *The program uses Form AS 4 (B) and/or AS4 (M) to report assessment outcomes to its constituents and the public on its website and routinely up-dates (minimally every 2 years) these postings*

All Council on Social Work Education programs measure and report student learning outcomes. Students are assessed on their mastery of the competencies that comprise the accreditation standards of the Council on Social Work Education. These competencies are dimensions of social work practice that all social workers are expected to master during their professional training. A measurement benchmark is set by the social work programs for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that particular competency.

COMPETENCY	COMPETENCY BENCHMARK	PERCENTAGE OF STUDENTS ACHIEVING BENCHMARK
We have four measures for each competency from which a weighted score is created. These scores serve as our outcome measures. The methods and their weights are: final field evaluations (50%), Likert field instructor scale (10%), faculty evaluations of competency portfolios (30%), and student evaluation of competency (10%).		
Identify as a Professional Social Worker	75% have a weighted score of 3.5 or higher.	90.6%
Apply Ethical Principles	75% have a weighted score of 3.5 or higher	87.5%
