Fredonia CARES is a Counseling Center initiative designed to address alcohol and other drug (AOD) concerns on our campus. The program responds to the individual needs of students who have been charged with a second violation of the Fredonia Alcohol and Drug Policy. Additionally, students who believe they might benefit from examining their substance use may take part in the program. Students will participate in a private and confidential consultation regarding their substance use and will participate in individual follow-up sessions that focus on self-assessment to help better understand the risks and impacts substance use plays in one's life. The program respects an individuals' values and personal choices regarding substance use, while recognizing that with new information, time to process it, and support for change, most people benefit from considering behavior change and exploring new beliefs. *From the Counseling Center website.
