

## GENDER INCLUSIVE HOUSING AGREEMENT

---

Gender Inclusive housing provides a living environment welcoming to all gender identities and is not limited by the traditional gender binary. This environment allows for same-gender, opposite-gender, agender or other-gender identities to live as roommates regardless of gender assigned at birth in a platonic environment in which they feel safe and supported; it is not intended for romantic cohabitation. The bathroom will have no gender designation and will be shared by all members of this community.

It is the individual student's choice to communicate with parents or family members about the decision to live in a gender neutral housing environment. The Office of Residence Life encourages this conversation between parents or family members about this housing choice so that there is a mutual understanding of the living environment.
